Bottle Jacks

Armstrong Professional Bottle Jacks

- Professional range of premium quality bottle jacks
- Manufactured and individually tested in Europe
- Tested to Australian standards
- Range in capacity from 8,000kg to 50,000kg
- Backed by a 12 month warranty
- Individually tested, these jacks are manufactured to the strictest international safety standards

Features

- Fitted with safety valve to help prevent overloading
- The base, pressure cylinder & oil deposit form one integral part enhancing safety and strength
- Any pressure loads produced due to tiltage are absorbed due to the design of the piston and cylinder
- Hydraulic stroke limitation system prevents ram from exceeding its stroke
- Jacks can be used in horizontal applications when required

Armstrong Heavy Duty Bottle Jacks

- Heavy duty range of high quality bottle jacks
- Tested to Australian standards
- Range in capacity from 2,000kg to 20,000kg
- Backed by a 12 month warranty
- Our heavy duty range offers a suitable solution to a variety of industrial applications

Features

- Heavy duty construction with die cast base
- High quality machined cylinders for leak free performance
- Ram and cylinder are polished to protect against internal abrasions

Bottle & Long Stroke Jacks

Air Hydraulic Bottle Jacks

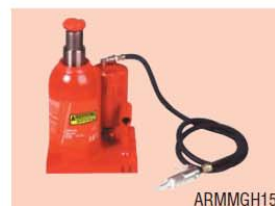

Armstrong Professional Air Hydraulic Bottle Jacks

- Professional range of premium quality air hydraulic bottle jacks
- Manufactured in Europe
- Range in capacity from 15,000kg to 30,000kg
- Backed by a 12 month warranty
- Ideal for use in workshop or roadside environment

Features

- Fitted with safety valve to prevent user from exceeding the rated capacity
- Hydraulic stroke limitation system prevents ram from exceeding its stroke
- Can be operated using a standard truck compressor
- Fitted with a hydraulic pump so they can be operated manually
- The operator will always remain in control of the jack, even if the air supply is interrupted
- High performance pneumatic pump
- All models fitted with Sur-sulf-coated ram for long life
- Extension screw gives added height when necessary
- Operates on minimum air pressure of 7bar / 100psi
- Operates on necessary air flow of 270 l/min / 9.5 cfm
- All models fitted with carrying handle
- 30,000kg unit supplied with metal carry case

Part No.	Capacity (Kg)	Stroke (mm)	Screw Extension (mm)	Closed Height (mm)	Base Area (mm)	Load Cap Dia. (mm)	Weight (Kg)	Repair Kit Part No.

Long Stroke Jacks

Armstrong Heavy Duty Long Stroke Jacks

- Heavy duty range of high quality long stroke jacks
- Range in capacity from 3,000 kg to 8,000 kg
- Backed by a 12 month warranty
- Ideal for use in floor cranes or other assembly applications

Features

- Available with a flat or clevis base
- Smooth operation during ascent and descent

Part No.	Capacity (Kg)	Closed Height (mm)	Max. Height (mm)	Stroke (mm)	Base	Weight (Kg)	Repair Kit Part No.

Trolley Jacks

Armstrong Professional Trolley Jacks

- Professional range of premium quality trolley jacks
- Tested to Australian standards
- Range in capacity from 2,000kg to 2,500kg
- Backed by a 12 month replacement warranty
- Suitable for professional user where performance and safety is paramount

Features

- Hydraulic stroke limitation system prevents ram from exceeding its stroke
- High quality machined cylinders for leak free performance leading to extended service life
- Ram and cylinder are polished to protect against internal abrasions
- Fitted with high quality durable seals for extended service life
- The 2,500kg unit is fitted with convenient foot pedal for quick no load lifts

Part No.	Capacity (Kg)	Min Height (mm)	Max Height (mm)	Chassis Height (mm)	Width Front (mm)	Width Rear (mm)	Overall Length (mm)	Load Cap Dia. (mm)	Weight (Kg)	Repair Kit Part No.

Long Chassis Trolley Jacks

Armstrong Professional Long Chassis Trolley Jacks

- Professional range of premium quality long chassis trolley jacks
- Manufactured and individually tested in Europe
- Tested to Australian standards
- Range in capacity from 1,400kg to 15,000kg
- Backed by a 12 month warranty
- Manufactured to meet the strictest international safety standards

Features

- Hydraulic stroke limitation system prevents ram from exceeding its stroke
- Hydraulic cylinder guide and leak tight hydraulic seal system leading to extended service life
- Fitted with safety valve to prevent user from exceeding the rated capacity
- Unique descent device acts automatically to control the speed of descent of the load
- Designed with 'Dead man's principle' which stops the drive if user accidentally loses control of the mechanism
- All models fitted with convenient foot pedal for quick no load lifts
- Rubber coated 'T' handle facilitates easier operation

Trolley Jacks

Aluminium Racing Jacks

Armstrong Heavy Duty Aluminium Racing Jack

- Heavy duty aluminium racing jack
- Tested to Australian standards
- Backed by a 12 month warranty
- A light weight jack which gives heavy duty performance

Features

- Light weight for easy handling
- Low profile racing design

Part No.	Capacity (Kg)	Min Height (mm)	Max Height (mm)	Chassis Height (mm)	Width Front (mm)	Width Rear (mm)	Overall Length (mm)	Load Cap Dia. (mm)	Weight (Kg)	Repair Kit Part No.

Aluminium Steel Racing Jack

Armstrong Heavy Duty Aluminium Steel Racing Jack

- Heavy duty aluminium steel racing jack
- Tested to Australian standards
- Backed by a 12 month warranty
- A light weight composite jack which gives heavy duty performance at a moderate price

Features

- Light weight for easy handling
- Low profile racing design

Part No.	Capacity (Kg)	Min Height (mm)	Max Height (mm)	Chassis Height (mm)	Width Front (mm)	Width Rear (mm)	Overall Length (mm)	Load Cap Dia. (mm)	Weight (Kg)	Repair Kit Part No.

Air Powered Trolley Jacks

Armstrong Professional Air Powered Trolley Jack

- Professional range of premium quality air powered trolley jacks
- Range in capacity from 1,800kg to 10,000kg
- Backed by a 12 month warranty
- Ideal for use in a heavy workshop environment

Features

- Fingertip control allows fast, safe metered control at any desired speed
- Can be operated by standard shop air, foot or hand pump
- Convenient foot pedal for fast no-load lifts

Part No.	Capacity (Kg)	Stroke (mm)	Min. Height (mm)	Max. Height (mm)	Chassis Height (mm)	Overall Length (mm)	Load Cap Dia. (mm)	Power Source	Weight (Kg)	Repair Kit Part No.

Air Powered Axle Jacks

Armstrong Professional Air Powered Axle Jacks

- Professional range of premium quality air powered axle jacks
- Manufactured in Europe
- Range in capacity from 14,000kg to 60,000kg
- Backed by a 12 month warranty
- Ideal for low clearance situations including heavy truck and bus applications
- Requires air pressure of 120 – 145 psi (270l/min)

Features

- Fitted with LCS, which allows the load to be smoothly lowered by automatically controlling the speed of descent
- The hand lever locks into 4 different positions allowing ease of placement under the load
- Telescopic ram on the ARMTAJ1460 & ARMTAJ2060 models

Part No.	Capacity (Tonnes)	Stroke (mm)	Min. Height (mm)	Max. Height (mm)	Width (mm)	Overall Length (mm)	Load Cap Dia. (mm)	Power Source	Extension (mm)	Weight (Kg)	Air Motor Repair Kit Part No.	Repair Kit Part No.

Armstrong Heavy Duty Air Powered Axle Jack

- Heavy duty air powered axle jack
- Backed by a 12 month warranty
- Compact design is ideal for tyre industry applications

Features

- Extension screw can be used to adjust height
- Safety overload system prevents jack from being used beyond its rated capacity
- Comes with four separate changeable head caps

Transmission Jacks

Under Hoist Transmission Jacks

Armstrong Professional Under Hoist Transmission Jacks

- Professional range of premium quality transmission jacks
- Manufactured in Australia
- Backed by a 12 month warranty
- Ideal for the removal & replacement of transmissions, engines & differentials in under hoist situations

ARMUH500 Features

- Suitable for standard car applications
- Wide base for added stability & manoeuvrability
- Equipped with tilting saddle, adjustable fingers & rails
- Complete with safety chain for added safety when raising & lowering loads
- Manufactured using high quality hydraulics

ARMTH500 Features

- Suitable for 4WD applications
- Has an extendable leg allowing ease of positioning under hoists
- Equipped with 4 way tiltable table complete with tilting saddle, adjustable fingers & rails
- Complete with safety chain for added safety when raising & lowering loads
- Manufactured using high quality hydraulics

Armstrong Heavy Duty Under Hoist Telescopic Transmission Jacks

- Heavy duty trade quality transmission jack
- Backed by a 12 month warranty
- Ideal for the removal & replacement of transmissions, engines & differentials in under hoist situations

Features

- Two stage telescopic ram giving greater lift range & control over the load
- Foot operated pump allows user to free hands to position load
- Wide base for added stability & manoeuvrability
- Heavy duty steel wheels & full swivel ball bearing castors
- Four wheel castors allows easy manoeuvrability & positioning
- Equipped with tilting saddle, adjustable fingers & rails
- Complete with safety chain for added safety when raising & lowering loads

Transmission Jacks

Armstrong Professional Transmission Jacks

- Professional range of premium quality transmission jacks
- Manufactured in Australia
- Backed by a 12 month warranty
- Ideal for the removal & replacement of large transmissions, engines, differentials & rear axle assemblies

Features

- Permits easy one person transmission removal & replacement
- Wide spaced ball bearing swivel castors provide exceptional stability & mobility
- Versatile multi grip mounting arms feature four point adjustment, permitting attachment to any unit
- Attachment chains also furnished
- Flow control valve slows descent of load
- Four point screw adjustment allows precise tilting of saddle
- User friendly 360 degrees rotating pump socket for ease of operation

Part No.	Capacity (Kg)	Min. Height (mm)	Max. Height (mm)	Chassis Width (mm)	Overall Length	Weight (Kg)	Repair Kit Part No.

Armstrong Heavy Duty Transmission Jacks

- Heavy duty trade quality transmission jack
- Backed by a 12 month warranty
- Ideal for the removal & replacement of small to medium sized transmissions, engines & differentials

Features

- Cradle has tilt adjustment with adjustable rails & safety chains
- Complete with safety chain for added safety when raising & lowering loads
- Internal hydraulic system is protected from over pumping damage
- Four wheel castors allows easy manoeuvrability & positioning
- User friendly 360 degrees rotating pump socket for ease of operation

Transmission Adaptors

Armstrong Heavy Duty Transmission Adaptors

- Heavy duty trade quality transmission adaptor
- Backed by a 12 month warranty
- Suits most garage jacks with 15/32 removable saddle shaft

Features

- Cradle has tilt adjustment with adjustable rails
- Complete with safety chain for added safety when raising & lowering loads

Part No.	Capacity (Kg)	Weight (Kg)
ARMTA250	250	13.4

Stands

Axle Stands - Pin Type

Armstrong Professional Axle Stands - Pin Type

- Professional range of premium quality pin type axle stands
- Manufactured in Australia
- Tested to Australian standards
- Range in capacity from 5,000kg to 20,000kg
- Backed by a 12 month warranty
- A high quality axle stand that provide a safe & efficient means of supporting vehicles

Features

- Solid one piece base for added stability
- Heavy duty reinforced construction for added safety & strength
- High strength locking pin for maximum safety under load
- Locking pin comes complete with safety chain
- Stands are individually rated ie capacity rating refers to per stand not per pair

Part No.	Capacity Per Stand (Kg)	Type	Minimum Height (mm)	Maximum Height (mm)	Weight Per Pair	Pack Qty
ARMAS5P	5,000	Pin	650	900	49.4	Pair

ARMAS10P

Axle Stands - Ratchet Type

Armstrong Heavy Duty Axle Stands - Ratchet Type

- Heavy duty range of high quality ratchet type axle stands
- Tested to Australian standards
- Range in capacity from 2,000kg to 8,000kg
- Backed by a 12 month warranty
- A high quality axle stand that provide a safe & efficient means of supporting vehicles

Features

- Sturdy welded construction for added safety & strength
- One piece ratchet bar provides superior strength & durability
- Easy to use quick adjustment mechanism that securely locks stands into position
- Stands are individually rated ie capacity rating refers to per stand not per pair
- Stands are sold in pairs and are recommended only to be used in pairs

Part No.	Capacity Per Stand (Kg)	Type	Minimum Height (mm)	Maximum Height (mm)	Weight Per Pair	Pack Qty
